

# VARNE BOAT CLUB

## SPECIMEN FISH 1% OF SPECIMEN WEIGHT

### THE SWEEP

Will be judged on your 'best fish'. Each anglers best specimen, the highest % of specimen weight wins the money.

**Say you catch a 10lb Cod, that's 10lb x 16 = 160oz divide that by the 1% 3.84oz = 41.66% of specimen weight.**

It helps to have a calculator but this a fair and foolproof way to decide the best fish on the day and I believe gives all competitors an equal chance to win whatever type of fishing they enjoy.

Any problems give me a call. Best of luck for a cracking season. call Zal on 07903700623
